Summary

- Hi, I'm Nguyen Tan Khoa, a Developer with 6 years of experience specializing in Front-end web and mobile development.
- I typically work by receiving Figma designs, breaking them down into reusable components, and building the necessary parts. I have extensive experience in developing high-performance eCommerce websites using PWA Studio, creating fast, reliable, and scalable Progressive Web Apps.
- For the past 3 years, I have been working remotely on PWA Studio projects, becoming highly adept at remote work culture. I am proficient with collaboration tools and have honed strong self-management and communication skills to ensure effective teamwork and productivity in remote environments.

Experience

08/2021 - 10/2024:
Legato Technologies Limited

Role: Front-end developer / Team Lead.

Technologies: React, Next.js, TypeScript, PWA Studio, working with Magento APIs, E-Commerce backend.

Key Responsibilities & Achievements:
- Led the development of high-performance eCommerce solutions using PWA Studio, ensuring scalability, reliability, and efficiency across projects.
- Collaborated closely with multiple stakeholders, including Magento CMS, Android app, iOS app, Design teams, Project Managers, and other key stakeholders in both Vietnam and Hong Kong to ensure seamless integration and alignment across platforms.
- Managed a team of front-end developers, providing mentorship and technical guidance, conducting code reviews, and ensuring the delivery of high-quality, reusable components.
- Developed strong research skills, exploring new technologies and ensuring the application of best practices throughout the development lifecycle.
- Improved presentation and communication skills, enabling clear and effective collaboration with stakeholders and team members across different teams and roles in Vietnam and Hong Kong.

Project:
- Kowloon Dairy: E-commerce websites and App for Kowloon Dairy, a milk brand in Hong Kong. Built using PWA-Studio.
- Green Common: Online Plant-based Grocery Store in Hong Kong. Built using PWA-Studio.
- Nefful: An eCommerce application with a membership system for Nefful company. Built using PWA-Studio.
- MRR: A front-end mobile application for MRR - Mobile Repair & Recycle.
- TOA-OMS: An Order Management System for Taste of Asia Group

09/2018 - 09/2019
First Interactive Technology

Role: Interns, Back-end web developer.

Knowledge achievement: HTML, CSS, JavaScript, SailsJS, Arduino, RabbitMQ.

Project:
- Power Management system: a system for manually/automatic power on/off the equipment in an office.
- Lucky Draw: a lucky draw game for 8/3 holiday in Gigamall Phạm Văn Đồng.

Skills

Collaborate: `VS Code` `Yarn` `pnpm` `Husky` `lint-staged` `Prettier` `Git Flow` `Figma` `Scrum Methodology`

I receive the design from the designer's Figma, analyze and split the project into tasks that follow Scrum Methodology and divide it to team's members using Asana/Trello/Jira. Then I create a codebase with plugins like Yarn, Husky, lint-staged, Prettier, Git Flow to ensure teamwork.

English: `Excellent Listening & Reading skills` `Good at Speaking & Writing`

I have Excellent Listening & Reading skills with the TOEIC certificate score of 835/990. My speaking and writing skill is good enough for verbal communication. In summary, I'm able to satisfy most requirements with acceptable and effective language.

Styling: `Flex` `Grid` `Tailwind CSS` `shadcn/ui`

I can create beautiful responsive designs with the help of various UI libraries.

React / Next.js: `Typescript` `Next.js` `React` `PWA Studio` `Format.JS` `GraphQL` `React Context` `Firebase` `Workbox` `Progressive Web Applications (PWAs)` `React Hook Form` `JSON Web Tokens`

I developed many websites using NextJS/React + Typescript, use Redux Toolkit for state management, communicate with GraphQL server using Apollo Client and deploy it to Vercel or VPS. I also have experience in Mobile Development using React Native.
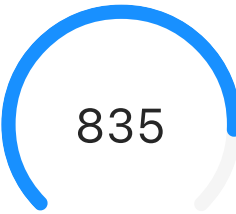

Linux: `Ubuntu` `ZSH` `Shell Script` `Cron job`

It's my hobby. I usually develop on Linux Environment and have a fond of working with the terminal.

Other stuff: `RabbitMQ` `Pusher` `Arduino`

Education

University of Information Technology - UIT
2015 - 2020
Major: Computer Network & Communication.
GPA: 7.18.

Certificates

835

TOEIC
Skills: Reading, Listening
Score: 835 / 990
View certificate

Hobby

Walking, Backpacking, Listening to Music
